

Heavy Duty Transformer Winding machine

This series horizontal coil winding machine is main composed of main axis box, end axis, bottom seat and control part.

This series of horizontal winding machine has a unique appearance, strong power, stability and reliability, easy operation, and intuitive data display, which is well received by the majority of users. Since it was put into operation, it has been widely used in the domestic power transformer industry. This series of winding machines are widely used in large-scale oil-immersed type and transformer production.

	WR-5	WR-10	WR-15	WR-20	WR-30
Max.Loading(kg)	5000	10000	15000	20000	30000
Main axis speed(r/min)	0-30	0-15	0-10	0-10	-10
Main axis center height	1100	1400	1600	1800	2200
Tip distance(mm)	1000-2500	1500-3500	1500-3800	2500-4000	2500-4500
Working voltage(v)	380	380	380	380	-
Main motor power(kw)	11	15	18	22	37
