

Multi Foil Winding Machine

Multi foil winding machine is suitable for all kinds of coils winding in middle and small electric transformer, circuit transformer, reactor and other similar art. Especially used for rectangular foil coil winding of amorphous and open coil steel core transformer.

	BRJ-800	BRJ-1000	BRJ-1400-2	BRJ-1400-2
Foil Width(mm)	≤800	≤1000	≤1400	≤1600
Foil Thickness(mm)	0.5-2.5	0.5-2.5	0.5-3	0.5-3
Foil Outer Diameter(mm)	100-800	160-1000	200-1400	200-1600
Foil Max Tension(KN)	≤8	≤10	≤26	≤32
Welding Method	Argonaut Welding	Argonaut Welding	Argonaut Welding	Argonaut Welding
Automatic Correction Accuracy(mm)	±0.3mm	±0.3mm	±0.3mm	±0.3mm
Insulation Max Tension	≤1	≤1	≤1	≤1
Installed Capacity(KW)	15	30	75	90
